Palexpo, Geneva
Room K – and on Zoom
13:00 – 17:30

Responsible Art Market

RAM

The Art Market in Action!

Constantly evolving to address new challenges and the ever changing world we live, this **6th annual RAM** conference, to be held in hybrid format (in person and online), will focus on the Art Market in Action !

We are delighted to welcome collector Sylvain Levy, for a fascinating keynote speech on **Collecting art in the age of the metaverse**.

From the perspective of the collector we turn to art market professionals in presenting RAM's latest publication, a "**Toolkit for Art Market Professionals**". Drafted by a working group of professionals from across the art market, the Toolkit aims to provide practical guidance to gallerists, dealers, art advisors and auction houses on handling the challenges which can arise when acting as intermediaries in the sale and purchase of works of art.

Through interactive dialogue and case studies, a panel of art market professionals will bring the Toolkit to life, sharing their experiences and practical tips for addressing difficult situations regarding liability, remuneration and conflicts of interest when they arise.

Following COP26 and growing public awareness and demands for businesses to address environmental and sustainability issues, the second part of the conference will ask the question "**What does sustainability mean for art businesses ?**". A panel of professionals who have embarked on the journey to reduce their carbon footprints, will share their collective experiences, practical tips and lessons learned so far.
